ABOUT ME

I am a proactive and results-driven Junior Web Developer with solid experience in both front-end and back-end development, specializing in technologies such as HTML, CSS, JavaScript, React, Python (Django), and SQL. I have successfully built and deployed real-world applications including blog platforms, expense trackers, and IoT-based solutions, demonstrating my ability to translate concepts into functional products. My hands-on experience through multiple internships has equipped me with strong problem-solving skills, adaptability, and a collaborative mindset. I am eager to join an innovative team where I can contribute to impactful projects, continue learning, and grow into a valuable asset to the organization.

EDUCATION

Akshaya College of Engineering and Technology.	B.E(CSE)	CGPA-8.2	2022-2026
